Africa Union of Broadcasting

A Road Map 2016 – 2020

(The Transformation Agenda)

Foreword

It is a great pleasure to present this proposed Road Map for the African Union of Broadcasting. We are presenting this road map as a “transformational agenda”, which, we believe, when appropriately followed will put into action the dreams and aspirations we all hold for the Union.

As with any member-based organisation, our capabilities and achievements lie in the quality of our network, the depth of our membership base, and our ability to gain and retain their continued support. We are planning to implement major activities that we hope will increase our membership uptake thereby enhancing the quality of our network.

Our esteemed and beloved Union will continue to set a course of purpose for a new and vibrant dynamism, coupled with the successful implementation of both our “MENOS” and the “ONE MINUTE” programmes,

AUB Chief Executive Officer
Gregoire Ndjaka

## Critical issues for the organisation

### Our Strengths
(What we must preserve, strengthen and effectively communicate to our stakeholders and partners)

- The AUB name and brand as a recognised leader in the broadcast and media development of Africa
- The diversity of the AUB family and its network - covering Arabic, English, French, and Portuguese
- Our shared vision and values, the soundness of the plans contained in this Transformation agenda plan
- AUB’s ability to offer pan-African exchange facilities
- AUB’s experience in acquiring global rights for leading sport and content programmes

### Our Weaknesses
(What we must respond to and find ways to overcome)

- Unproven or unclear purpose and value to our membership base
- Inadequate organic funding and fundraising capabilities
- Inadequate communications on all levels
- General capability and systemic weakness of public broadcasters

### The Opportunities
(We must take advantage of these opportunities)

- MENOS in operation - taking advantage of this content hub
- The ongoing digitisation of broadcasting and media in Africa
- Exploiting a broad based, community-centered global content and event rights acquisition
- Formal partnership with other major stakeholders across the globe

### Threats
(We must find ways to protect against and overcome these threats)

- Our lack of cutting edge effectiveness in this complex industry
- Failure to fully deliver MENOS and the ONE Minute Project
- Destabilisation effects of forces of money from purely commercial organisations, that have no public interest or focus
Our Main Focus For This Period
This roadmap will be navigated with the following focus:

- **Our Image** - Repositioning our image as the pre-eminent professional broadcast body for Africa
- **Digital Content** - Sustainable access to quality and cost-effective broadcast ready content
- **Professional Training** - World-class training and skills development for practitioners

It is important to emphasise that our success is guaranteed as long as we remain focussed and committed to our plans. Many of our initiatives will be effective in helping to attain our objectives and goals, thereby giving our members the reason and motivation to keep supporting this important organisation that we are all a part of.

We all have a role to play in the development of our community and we must continue to play our part on that level. We ask every member of our profession to come on board and help realise a greater, more effective African Union of Broadcasting.
